

NOTICE

CCSI TRAINING COURSES SUSPENDED

We regretfully announce immediate suspension of all CCSI Training Courses accredited by ICCCS Switzerland until further notice.

This unfortunate step has to be taken because of serious internal issues in CCSI, triggered by mischievous activities of certain ex-Committee members including their running private parallel training courses in competition with CCSI and also entering into illegal foreign exchange transactions flouting FEMA regulations, thus tarnishing the reputation of our organization. The undersigned had spent months personally preparing and submitting these training courses to ICCCS and getting them accredited. The contents of these courses including power-point presentations, agendas and time tables, examination questions and answers, feedback evaluation forms, are my personal intellectual property and have not been assigned to anybody else and I am also the chief faculty member.

It has come to my notice that certain erstwhile Committee Members of CCSI who have been removed from their posts, are unauthorisedly and secretly trying to conduct so called "CCSI training courses", and cleanroom professionals are hereby warned not to fall prey to this illegal activity. If anybody attends such illegal courses, their names will not be posted on the CCSI website or ICCCS graduate register.

Further you are kindly informed that in spite of my reminding him repeatedly for several years, the previous Committee Members did not get our society registered. CCSI is not a registered society, so it is not a legal entity. As you are aware, nobody can sue (take legal action against) an unregistered society and vice versa. If CCSI were to default on any kind of payment, or commit a fraud or not issue you any certificate, you cannot sue CCSI but will have to take legal action against every individual CCSI member, which is neither practical nor feasible. Moreover, the bank accounts of CCSI have been frozen and day to day activities have come to a stand- still.

Legal action has been initiated against the above erstwhile members. For any further clarifications, please do not hesitate to contact the undersigned.

Best Regards,

Sheesh Gulati
